Hotpoint

100 YEARS OF OUR IDEAS
IMPROVING YOUR HOME

We have created this special version of our logo to celebrate our 100 year anniversary. **Keep an eye out for the silver icon throughout this brochure to highlight 100 of our ideas that give our products the Hotpoint difference.**

www.hotpoint.co.uk
www.hotpoint.ie

We have been building a reputation for **quality, reliability** and **distinction** for over a century. Constantly researching and developing intelligent ideas for your home that continue to raise the bar, year after year.

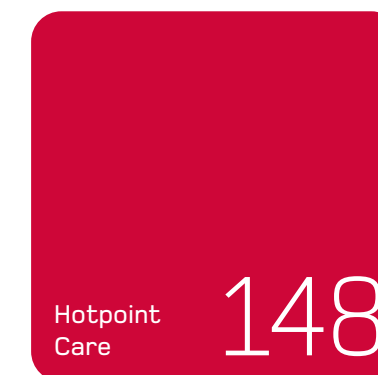

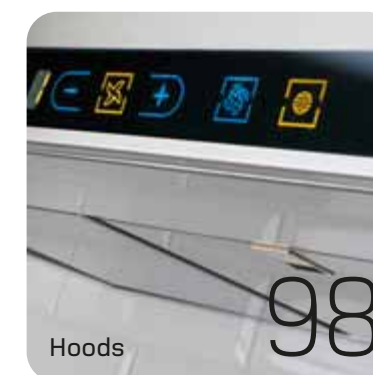

We design every Freestanding appliance to make life easier. We're constantly improving the way they work through cutting edge technology, innovative ergonomics and efficient features. Eco Tech technologies, for instance, help you save more energy. Colour Care keeps your clothes in pristine condition and our new Frost Free System helps keep your food fresher for longer.

We believe performance and style should work together hand in hand. So our Freestanding Collection is designed to make a statement in your home, whilst delivering outstanding performance.

“It’s good, but how can we make it better?” That’s what we constantly ask ourselves to keep our range fresh.
Our ideas. Your home.

+ good, but now
even better

Laundry
The Aqualtis **AQ113D697** on p23, now boasts a cavernous 11kg capacity, and combined with A+++ energy means you can wash even more in one load and use even less energy.

AQUALTIS

+ good, but now
even better

Dishwashing
Our best energy efficiency, the new Ultima dishwashers now have up to an A+ rating and our lowest water consumption. See p61-63.

+ good, but now
even better

Website & You Tube
Go online to see the updated Hotpoint website, or visit our You Tube site, to see the latest product videos for all the new Hotpoint 2011 range.

Energy Saving
See p12-13 for Eco Tech range.

+ good, but now
even better

Refrigeration
The new fully frost free fridge freezer range, has improved air circulation which means your food is kept fresher for longer, and in optimum condition. From p119.

+ good, but now
even better

Cooking
We extended our range of cookers by welcoming the famous Cannon brand into Hotpoint. This now gives you the choice of the premium Cannon by Hotpoint, 100cm and 60cm range cookers. p76-81.

High performance, low energy appliances from Hotpoint. It's good to stand for something, especially when it could help save precious resources.

If you see the Eco Tech icon on our appliances you'll know you are getting the very best energy rating or specific energy saving features, such as our award winning Eco Cycles.

New green technology, means the new Hotpoint range is the most energy efficient ever, and uses less resources. Just some of the highlights include:

AQUALTIS

New A+++ energy rated washing machines - 30% more energy efficient than a standard A rated model.

New A-40% energy rated Aqualtis tumble dryer – uses 40% less energy compared to a standard A rated dryer.

Washing Machines

A++ energy rating on all Ultima and Aquarius+ models. Award winning Eco Cycles/Eco Wash across the entire range. Save around 50-70% in energy with these cool wash cycles.

Refrigeration

More energy efficient than ever with new A++ and A+ models in our 60cm frost free fridge freezer range.

Dishwashing

The best in energy efficiency and water consumption with Ultima dishwashers.

The new A+ model (**FDUD4812**), has our lowest water consumption level yet, only 10 litres of water per wash. Of course all our Ultima models have Flexipower motors to ensure intelligent cleaning power and superb energy efficiency.

Cooking

Look out for our Double A rated Ultima cookers with double ovens, in Dual Fuel (**HUD61**) and Electric (**HUE61**) options.

Laundry

- 22 Washing Machines
- 36 Washer Dryers
- 42 Tumble Dryers
- 50 Specifications

The Laundry Range

Wash, Dry, Wash and Dry... whatever your laundry needs we will have a product designed for you.

AQUALTIS

Total care for your clothes

With their distinctive style, the Aqualtis family of products offer maximum technical performance and ease of use, whilst still looking great in the kitchen.

Across Aqualtis washing machines, washer dryers and tumble dryers you will find a range of specialist features designed to care and protect your clothes whilst leaving them outstandingly clean.

ULTIMA

The ultimate large capacity family machine

Busy lifestyles demand premium performance. So when it comes to washing machines, Ultima is the obvious choice. For those who want the best of everything, the smooth style and array of useful features won't disappoint, such as their huge 9kg load capacities and interactive LCD display panels.

AQUARIUS+

More capacity, more control

With a large capacity and digital display including Time to End, our Aquarius+ models give you easy access to a range of new cycles, such as Anti-Stain and Whites that will help you take care of all your laundry needs.

AQUARIUS

Essential everyday performance

Designed around your needs, our Aquarius models are ideal for couples or smaller households. Available with an LED display and all the basic programmes you need, including our energy saving Eco Cycles, on our washing machines.

Our new Aqualtis Range is the latest evolution in washing and drying technology giving you **Total Care for your Clothes.**

Our ideas. Your home.

Washing

- Unique wave-shaped lifters in the drum, which softly massage your clothes to protect and care for them
- Still featuring Steam Refresh, Steam Hygiene and Eco wash functions
- All new Aqualtis washing machines are A+++ energy rated
- Increased capacity - now 11kg

Drying

- New wave patterned drum creates an air cushion for smoother and gentler tumbling during drying
- Outstanding energy efficiency – with a new A-40% rated model which uses innovative heat pump technology
- Increased capacity, Aqualtis dryers are now 9kg

Excellent care for colours

New Aqualtis washing machines have specialised cycles for treating coloured, white and dark clothes that gently wash, effectively removing dirt and stains. Whites stay white and colours remain vivid thanks to the Hydro thermal tech fibreglass tub ensuring a constant temperature control is maintained inside the drum.

Woolmark Platinum

The new Wool cycle has been awarded the prestigious Woolmark Platinum Star. Soft wave shaped lifters in the drum provide a massaging treatment to delicate fibres, like wool while ensuring a perfect clean.

Anti-ageing protection

Aqualtis tumble dryers offer the exclusive anti-ageing treatment, based on specific drying programmes that extend the life of the fabrics, protecting colours and relaxing, as well as regenerating fibres.

100 years of innovation

Powerful anti allergy action!

The Anti Allergy cycle, designed for washing machines and tumble dryers, helps reduce major allergens without damaging the fibres of your clothes. This uses patented high temperature technology and additional rinse phases to reduce traces of detergent and remove allergens. The Anti Allergy cycle on our washing machines, has been tested by and achieved the Allergy UK, Seal of Approval.

Our new laundry range has advanced features to guarantee outstanding cleaning and drying performance, time after time.

Our ideas. Your home.

With a brand new matching design, our Ultima, Aquarius+, and Aquarius Washing Machines and Tumble Dryers incorporate a host of new features.

Washing

- Widened inner porthole - one of the largest on the market
- Newly designed rotating detergent drawer with easy dose device
- Easy to open ergonomic door handle
- Ultima models now have a 9kg capacity

Drying

- Larger capacity - now up to 9kg!
- New wave patterned drum - creating an air cushion for smooth tumbling
- New improved filter
- Largest water bottle for more dry loads and less emptying

Whiter for longer

Temperatures are maintained throughout the cycle to ensure efficient stain removal on white cottons with an intensified mechanical action. The result? Garments maintain their original whiteness for longer.

More energy efficient than ever!

Ensuring we are more energy efficient than ever before, our new washing machines feature an energy rating of A+ on Aquarius models or A++ on Aquarius and Ultima models. All our washing machines are Eco Tech models, and have dedicated Eco Cycles/Eco Wash function to save you around 50-70% in energy.*

Powerful Anti Allergy action

With new patented high temperature technologies on our washing machines and tumble dryers, major allergens and traces of detergent are reduced from clothes to care for delicate skin.

Select the Anti Allergy cycle on Aquarius, Aquarius+ and Ultima washing machines and (Anti Allergy option on Ultima washing machines). These have been tested by Allergy UK and awarded their Seal of Approval.

*Energy savings are up to 50% for Eco Cotton cycle, up to 68% for Eco Synthetic cycle and up to 70% for Eco Fast Wash cycle (all compared to equivalent 30°C cycle)

100 years of innovation

The most Advanced Anti-Stain Treatment yet.

This cycle removes even the 20 most difficult of stains thanks to its intelligent electronic water and temperature control.

Normally stains require high temperatures in order to get them out, but this can also fade colours. The Anti-Stain cycle effectively removes difficult stains, including fruit, blood, chocolate, grass and felt-tip pen. This is achieved through the agitation of the wash, an initial bio-phase at 40°C, to remove enzymatic stains, followed by a constant 43°C phase, ensuring the removal of all stains, without pre-treatment.

Washing Machines

AQUALTIS

The latest evolution in washing technology.

AQ113D697

11kg Aqualtis Washing Machine

100 years of innovation

More gentle than washing by hand.

Aqualtis knows how to pamper the most delicate and precious fabrics and garments such as lace, silk, embroidered linen, fabrics with sequins, wool or cashmere.

Whilst Total Care for your Clothes comes as standard with Aqualtis, with our new Ultra Delicate Cycle, even the finest fibres and garments considered difficult can be washed at home.

The new wave shaped design of the lifters in the drum, gently cradles garments and massages them during washing.

The material they are made of caresses the fabrics, while the small holes distributed on their surface let out regenerating jets of water, which relax the fibres.

Keep the original colour of your clothes, with the new Colour Care Cycles.

1600rpm Max Spin Speed

Colours: White with Tungsten Door (E),
White with Ice Door (I), Silver (S)

100 years of innovation

Steam. A 100% natural clean.

Using the innovative titanium heating element, it creates perfect steam molecules which penetrate and relax laundry fibres. The density of steam is much less than that of water, ensuring total hygiene in the most natural, economic and gentle way.

Aqualtis has 2 special steam cycles:

Steam Refresh – A short 20 minute cycle to help remove odours such as smoke or food smells or to freshen up garments that have only been worn for a few hours.

Steam Hygiene – An additional period of steam at the end of a normal wash cycle, for a deep and thorough cleanse that eliminates 99.9% of germs and bacteria. This combines with the Anti Allergy cycle to remove allergens from your clothes.

AQUARIUS

A **simple** and easy to use machine that's ideal for smaller households.

100 years of innovation

Functional and ergonomic design.

Our new washing machines feature a host of intelligent design features to make using them even easier.

A new larger door and porthole, 340mm in diameter to make loading and unloading your laundry more convenient.

New ergonomic handle. The shape of the handle has been redesigned to make it easier to hold and give it extra strength.

Rotating drawer with dispenser - the drawer rotates on itself, facilitating the dosing of detergent. In addition, thanks to the Easy Dose wall, it is easier to pour in the right amount of liquid detergent.

Working in Partnership

Hotpoint are working in partnership with Ariel to bring you the best energy saving products and solutions for your home.

Hotpoint and Ariel Embrace Energy Saving Washing

Get great cleaning and save around 50% to 70% in energy.* Hotpoint and Ariel have worked in partnership to develop a selection of energy saving Eco Cycles. Using the cleaning power of Ariel together with Hotpoint's advancement in washing technology, you can get great cleaning even at low temperatures and save electricity – perfect for helping you save money and do your bit for the environment.

Our 3 unique Eco Cycles include: Cottons, Synthetics and a Fast Wash. Choosing the Eco Cycles will help you to save around 50% to 70% in energy*... definitely worth considering for your daily washing.

Hotpoint recommends the use of Ariel Excel Gel with Actilift™ with our Eco Cycles for the best results.

Eco Cycles

Cottons

For everyday cleaning needs for cotton or linen items.

Synthetics

Designed to wash a variety of man made fibre mixtures.

Fast Wash

A fast cycle for everyday mixed fabrics that need a freshen up or are only slightly dirty, in just 30 minutes.

*Energy savings are up to 50% for Eco Cotton cycle, up to 68% for Eco Synthetic cycle and up to 70% for Eco Fast Wash cycle (all compared to equivalent 30°C cycle).

Washing Machines

Our Laundry solutions are what makes the Hotpoint difference. They are designed to help make your life easier.

Our ideas. Your home.

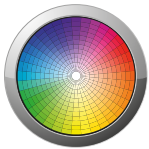

Anti Allergy Cycle

Available on Hotpoint washing machines, this cycle uses a combination of high temperature (60°C) and additional rinse stages to significantly reduce major allergens such as dust mites and pollen. Hotpoint has achieved the Allergy UK, Seal of Approval.

Ultra Delicate Cycle

Aqualtis knows how to pamper your most delicate and precious fabrics and garments such as lace, silk, embroidered linen, fabrics with sequins, wool or cashmere. This is achieved through reduced agitation from the soft cascade lifters and a 'cradle' movement in the wash phase.

Colour Care

New to Aqualtis, our unique hydro thermal technology, keeps temperatures constant maintaining the original colour of your clothes for longer. There are 3 dedicated cycles for Whites, Darks and Coloureds.

Advanced Anti-Stain Cycle

The most advanced anti-stain treatment yet on Ultima, Aquarius+ and Aquarius machines – this cycle permanently removes even the 20 most difficult of stains thanks to its intelligent electronic water and temperature control.

Whites Cycle

On all Hotpoint washing machines, temperatures are maintained throughout the cycle to ensure efficient stain removal on whites with an intensified mechanical action. The result? Garments maintain their original whiteness for longer.

Eco Tech

Our Eco Tech icon is awarded to those washing machines that have at least an A+ energy rating or feature our Eco Cycles or Eco Wash function for ultimate energy savings.

Super Silent Wash

A Hotpoint Super Silent washing machine is equipped with a specialised motor and sound insulating panels which dramatically reduce noise levels during the wash cycle, so that you'll hardly know it's working.

Bed & Bath Cycle

Available on our large capacity 9kg and 11kg washing machines, this programme has been specially designed to wash bulky loads of bedding and towels efficiently in just under two hours, with great cleaning performance.

Baby Cycle

Let Hotpoint help look after your little one's clothes. Our Baby Cycle specially designed to tackle the toughest of stains typically associated with babies and young toddlers, including baby food, fruit yoghurt, mud and grease.

Woolmark Platinum

Aqualtis machines has been awarded the prestigious Woolmark* Apparel Care Platinum Star, recognising the effectiveness of the special Wool Cycle in treating woollen fibres in an extremely gentle way.

*In the UK and Eire the Woolmark is a Certification Trade Mark

Our Laundry solutions are what makes the Hotpoint difference. They are designed to help make your life easier.

Our ideas. Your home.

6+6kg Wash and Dry
Our Aqualtis washer dryers have a huge 8kg wash load, which gives them the capacity to wash and dry a 6kg load in a single uninterrupted cycle.

5+5kg Wash and Dry Load
Our Ultima, Aquarius+ and Aquarius washer dryers have a large 7kg wash load, with the capacity to wash and dry a 5kg load in a single uninterrupted cycle.

Ready to Wear Cycle
This extra fast programme has been designed to **wash and dry** a small load of lightly soiled garments in just **60 minutes**, making it perfect for refreshing an outfit the same day or night you need it...or even an urgent school uniform wash.

Woolmark Platinum Care
All Hotpoint washer dryers feature this special wash programme endorsed by Woolmark*. Extra gentle agitation and low spin speeds help to reduce friction between fibres to help keep your woollens in great condition.

Super Wash
This option adds an extra boost to the cycle to offer a high-performance wash designed to deal with the most difficult types of dirt.

*In the UK and Eire the Woolmark is a Certification Trade Mark

Eco Tech
Our Eco Tech icon highlights those washer dryers with an A energy rating or specialist Eco features such as the Eco Wash Function like on all our Aqualtis washer dryers that save around 50% to 70% in energy* by automatically modifying the Cotton, Synthetic or Fast Wash cycle.

*Energy savings are up to 50% for Eco Cotton cycle, up to 68% for Eco Synthetic cycle and up to 70% for Eco Fast Wash cycle (all compared to equivalent 30°C cycle).

Set and Forget Sensor Drying
Our Set and Forget drying system uses sensors to monitor the moisture and temperature levels inside the drum of the machine, for maximum energy efficiency. The machine stops when clothes reach the desired drying level (see below).

Iron Dry
This drying setting leaves a level of moisture within the clothes, helping to make the ironing easier, which is particularly useful for garments such as shirts.

Hanger Dry
This medium drying level is ideal for garments which don't need to be ironed and can simply be placed on a hanger to finish drying.

Cupboard Dry
The drying programme will end when the sensors detect very little moisture inside the drum, meaning the garments are almost completely dry and ready to be put away.

Extra Dry
This level of sensor drying ensures the garments are completely dry and can be worn immediately.
Please note, Two, Three or Four Level Set and Forget Sensor Drying is available depending upon your choice of machine.

Tumble Dryers

Completing the Aqualtis family, these distinctive, condenser tumble dryers fit in with every lifestyle.

AQUALTIS

100 years of innovation

Smart water bottle.

Functional design is one of Hotpoint's strengths, and this is highlighted in the innovative new Smart valve water bottle for our condenser dryers. This is larger than ever so lets you dry more loads before you need to empty it.

Removing it is even easier; just grip the ergonomic handle and pull. With no danger of spilling water, as the bottle has a new handle and can be carried in an upright position. The water bottle also has two separate emptying valves – one for quick emptying and one for precise emptying if you choose to recycle the water for ironing or watering plants.

Complete convenience with Set & Forget Sensor Drying

which switches off when the load is dry.

Condenser Dryers

The ultimate drying convenience, condenser dryers do not need a vent hose so they can be placed anywhere in your home. The internal condensing system collects moisture into an easy empty water bottle at the top of the machine. You don't even have to empty the water at all if you use the mains drain option, which comes as standard on all Hotpoint condenser dryers.

Vented Dryers

Designed to co-ordinate with our washing machine range, Hotpoint vented dryers offer a 7 or 7.5kg load capacity and are full of helpful features like Easy Iron and a useful airing programme.

Anti Allergy Action

This cycle uses a patented high temperature control system to eliminate and reduce major allergens to help protect those with sensitive skin.

Anti-Ageing System

The innovative wave design creates cushions of air which gently embrace the laundry. Keeping the natural beauty and colour of your clothes.

Set and Forget Sensor Drying

Our Set and Forget drying system uses sensors to monitor the moisture and temperature levels inside the drum, so that based on the choice of drying level you make (Damp Dry, Iron, Hanger, Cupboard Dry or Ready to Wear), the machine senses when the load is dry. Not only convenient for you, sensor drying ensures maximum energy efficiency, by ensuring that the machine stops when the clothes reach the drying level selected.

Eco Tech

Our Eco Tech icon highlights those tumble dryers with a B energy rating or above, helping you to save energy at home. For maximum energy efficiency, see the Aqualtis A-40% rated dryer on p43.

Pre and Post Creasecare

Help prevent creases forming in your laundry by selecting the Pre and/or Post Creasecare option, which will intermittently tumble the load with no heat. Particularly useful if you are not available to unload the machine at the end of a cycle.

Baby Programme

Available on our Aqualtis tumble dryer, a specially designed drying programme with a constant heat profile, set to maintain a small level of moisture in the garments leaving them perfectly soft and gentle against delicate baby skin.

Bed and Bath Programme

A profile designed with the optimum balance of heat, tumble and cooling phases to ensure that bulky loads of bedding and towels dry evenly, giving perfectly soft drying results every time.

Heat & Enjoy

Brings the temperature inside the drum to 37°C and keeps it constant until the door is opened. Ideal for the winter and cold evenings, as children's pyjamas or towels come out warm, as though just off the radiator.

Woolmark Silver Care

Selected Hotpoint tumble dryers feature this special programme endorsed by Woolmark*, the world's leading authority on all wool items. The drum moves in one direction throughout the drying action, which helps to eliminate any friction between the fibres to help keep your clothes in great condition.

*In the UK and Eire the Woolmark is a Certification Trade Mark

Laundry

The Dishwashing Range

Free up your time by never having to wash up by hand again. Our new range of full size or slimline dishwashers, incorporate the very latest technology.

ULTIMA

The latest features and ultimate performance, Ultima dishwashers have a 14 place setting capacity and LCD display. Complete with a Flexipower motor and intelligent sensor system, and now even more conscious of the environment with A+ energy rating and reduced water consumption.

AQUARIUS+

Complete control and maximum space. The Dual Space adjustable basket also delivers complete flexibility by allowing you to adjust the height of the top basket.

AQUARIUS

Simple and easy to use for smaller households, our 12 place setting Aquarius dishwasher has an easy to use LED display and useful features such as ultra fast Speed 25 cycle, so you'll have time to get on with more important things.

Slimline

Limited space in your kitchen? No problem. One of our slimline 45cm wide dishwashers will be the perfect fit. Available in a range of models, our Ultima version has all the latest features including the Flexipower motor and can still fit 10 place settings.

ULTIMA

Full Size Dishwashers

Flexipower

Clever cleaning power exactly when you need it.

FDUD4812

Full Size Ultima Dishwasher

100 years of innovation

Choose a dishwasher with Flexipower for ultimate performance, efficiency and flexibility.

Thanks to the Flexipower intelligent sensor system you can rest assured that your dishwasher will automatically adjust the profile of the wash cycle, depending on the dirt detected on your dishes. So because it only uses the resources it needs, you get high performance with low energy. Thanks to the optimum energy savings it means Flexipower dishwashers are Eco Tech accredited. Look out for the icon on relevant models.

Flexipower

Clever cleaning power when you need it with our Flexipower motor.

Full Size Aquarius Dishwasher

100 years of innovation

Dual Space.

Whatever the size of your pots, pans and plates, Dual Space gives complete flexibility. Ever loaded the dishwasher and struggled to get those last few larger items in? With Dual Space you won't have this problem again.

This handy feature on selected dishwashers allows you to adjust the height of the top basket in one quick and easy movement, even if you've already fully loaded it. This leaves more room in the lower basket for larger items, and ensures everything gets cleaned properly.

More space to wash larger items

with Dual Space which lets you raise the top basket even when loaded.

- 14 Place Settings

Hotpoint dishwashers have an array of features to free your time, and free you from the kitchen sink.

Our ideas. Your home.

14 Place Settings

Cleverly designed upper and lower baskets allow you to wash two extra place settings within the same standard sized dishwasher, with no compromise on cleaning.

Dual Space

The Dual Space system on selected dishwashers allows you to adjust the height of the top basket in one quick and easy movement, even if you've already fully loaded it, which means you can have more room in the lower basket.

Speed 25

This ultra fast cycle has been developed to wash lightly soiled items in just 25 minutes, leaving you free to get on with more important things.

Extra Silent & Goodnight

Our top of the range Ultima dishwashers are some of the quietest on the market, at a similar noise level to a quiet conversation.

Daily A 60

This wash programme has been designed to wash a typical load of 4-6 lightly soiled place settings within just 60 minutes, whilst achieving an A class wash performance.

Eco Tech

Our Eco Tech icon highlights dishwashers with our energy efficient Flexipower intelligent sensor system.

Eco Wash

An environmentally friendly wash cycle combining low energy consumption levels with great cleaning performance.

A+

Our new Ultima and Aquarius+ dishwashers have an A+ energy rating, and Ultima now also features reduced water consumption using as little as 10 litres per wash.

Duo Wash

The versatile Duo Wash incorporates two washes in one – a gentle wash in the top basket for delicate glasses and china, while an intensive wash takes care of heavily soiled plates, pots and pans in the bottom basket.

Delicate

This Delicate wash programme gives your fragile crystal, china and glassware the care needed, to ensure great cleaning with no damage.

Short Time

Short Time significantly reduces the duration of the wash phase whilst still maintaining the optimum washing and drying performance by increasing water pressure.

Finish

Together with Finish dishwasher detergent we strive to promote and educate the benefits and potential savings of using a dishwasher, as well as saving you time and energy at home. To ensure the best performance from your dishwasher you also need the best detergent so use Finish to get amazing results every time.

Cookers Range

Welcoming Cannon
into the Hotpoint family

Behind every great cook is a great cooker. With a long established reputation for reliability and excellence, Cannon inspires people who love to cook.

The Cannon by Hotpoint range offers a collection of our most versatile, professional cookers packed with intelligent features to ensure ultimate performance for creative cooking. From Professional and Traditional 100cm Ranges to 60cm Mini Ranges.

Unique technology gives you the ability to create perfect recipes time and time again. The Precision Cooking System with its simple controls and digital temperature read out puts you in control and gives guaranteed results every time.

Welcome to The Art of Cooking

100 years of innovation

Profile Cook

Cannon by Hotpoint's latest technology includes two advanced cooking modes to bring out the best in every cook. For perfect meat and fish select Profile Cook and with Perfect Bake you can be assured of delicious cakes and home baked bread at the touch of a button. Plus choose from fan or traditional oven.

The Precision Cooking System with its easy to understand controls and digital temperature readout puts you in control, with guaranteed results every time.

Profile Cook

Select a Profile Cook programme and the environment of the oven is automatically controlled to provide the optimum cooking conditions for meat and fish. This function works with you to ensure a perfect result every time.

Perfect Bake

The Perfect Bake programme automatically sets the cooking temperature and time to suit your recipe. For fresh bread and tasty cakes, Perfect Bake gives you the confidence to leave your creation with the cooker.

A taste of our expert features on the Cannon by Hotpoint range.
Our ideas. Your home.

Profile Cook Functions

 **Roast Meat**
A profile programme specially designed for roasting meat.

 **Roast Chicken**
A profile programme specially designed for roasting chicken.

 **Fish**
Gentle top and rear heat to lightly poach fish.

Perfect Bake Functions

 **Bread Cycle**
A fully automatic cycle which sets the optimum temperature and time for baking bread.

 **Rising**
Heats and holds the oven at 40°C - perfect for proving bread.

 **Cake Cycle**
This fully automatic cycle sets the temperature and time for baking perfect sponge based cakes.

Oven Options

 **Fan Oven**
Ensures even temperatures throughout the oven.

 **Traditional Oven**
Conventional heat making the middle of the oven the optimum temperature for cooking.

Hob Features

Powerful Wok Burners
Cannon by Hotpoint models feature a range of different burner types to ensure optimum cooking performance.

Fish Kettle Burners
90° rotating oval burners to give an even heat around the pan, perfect for larger pans and griddles.

5kW Multi Wok Burner
A versatile and powerful 5kW burner, which features independent controls offering three different options for use.

Triple Ring Wok Burner
A powerful 3.25kW burner with three rings of flames creating even heat distribution under the base of the wok.

Grill Features

Easy Glide Grill Pan
The grill pan is secured on telescopic runners when it is pulled out, leaving hands free to check or turn food safely.

Solarplus Grill
Heats up in just 15 seconds and is 20% more efficient than a conventional grill.

Powerful Gas Grill
Provides fast and powerful heat, along with excellent coverage and flexibility.

Twin Grills
You can choose to use the grill on full width or use just half the grill if you're grilling a small amount, which will save energy. With variable temperatures too, this makes the grill versatile and economic to use.

Other Features

Heat Clean Oven Liners
Catalytic agents work with the heat of the oven to break down grease and excess fats to minimise cleaning time.

Programmable Timer
Offers the ability to start and stop the oven automatically at a time that suits you. A handy minute minder and clock is also included.

ULTIMA Cookers

Electric, gas or dual fuel, whatever you want in a cooker, the Ultima range provides exactly what you need.

Intelligent Cooking System

Your ideal kitchen partner...our Intelligent Cooking System features pre-set functions to help you achieve great results every time. Simply choose one of the two unique Intelligent Cooking programmes.

One Touch – with 3 automatic cooking functions
Whether you're cooking fresh bread or a Victoria sponge, One Touch automatically sets the correct temperature and time dependent on what you are cooking to ensure perfect results.

Cake Cycle

Sets the time and temperature for baking perfect sponge based cakes.

Bread Cycle

Sets the optimum time and temperature for baking bread.

Rising

Heats and holds the oven at 40°C – perfect for proving bread.

Smart Chef– with 3 cooking functions
Cooking has never been simpler! Smart Chef provides the optimum conditions for roasting all types of meats and delicate fish. The oven elements and temperature are able to fluctuate throughout the cooking period until the food is cooked just the way you like it.

Roast Meat

A profile programme specially designed for roasting meats.

Roast Chicken

A profile programme designed for the perfect roast chicken.

Fish

Gentle top and rear heat to lightly poach fish.

The Intelligent Cooking System is only available on Ultima HUE62

100 years of innovation

Perfectly baked cakes at the touch of a button!

With the Intelligent Cooking System's Cake Cycle you can sit back and relax whilst the oven does all the hard work for you!

As the oven sets and optimises cooking conditions, you will be amazed when your cake rises and cooks to perfection without you having to set the time or temperature!

Don't forget to also take a look at the other Intelligent Cooking System programmes.

ULTIMA 90cm Range Cookers

Designed to make cooking even more pleasurable, our 90cm Range Cookers are packed full of great features.

Colour: Stainless Steel (X)

Our cooking solutions are designed to make things easier, freeing up your creativity in the kitchen.

Our ideas. Your home.

Double Oven Cooker

These cookers have two separate ovens and a grill. This gives you the best of both worlds, with greater oven flexibility and capacity, meaning you can cook and grill at the same time.

Twin Cavity Cooker

A cooker with an oven on the bottom and a separate cavity at the top that features a grill. This means you can grill and cook at the same time, or use the top cavity to keep food warm.

Single Cavity

Allow our single cavity oven to take care of your cooking creations. The extra large oven features a combined grill, giving you maximum cooking space.

Solarplus Grill

Heats up rapidly, heating up in just 15 seconds. The speed of the grill means the food stays moist, as more efficient cooking helps prevent food from drying out. It's 20% more efficient than a conventional grill too.

Twin Grilling

You can choose to use the grill on full width or use just half the grill if you're grilling a small amount, which will help to save energy. With variable temperatures too, this makes the grill versatile and economic to use.

Gas Hobs

For control and precision, great for giving instant adjustable heat. Our gas hobs feature a range of burner styles, such as simmers and wok burners.

Ceramic Hobs

Efficient, easy to clean, they offer fast and responsive heat, saving you time, cooking and cleaning.

Wok Burner

Ideal for stir-frying, this high speed gas burner distributes heat evenly around the base of the wok for fast, efficient and perfectly cooked dishes.

Precision Control

Gives you a greater degree of temperature choice for ceramic hobs, when selecting a heat setting.

Solarglo Zone

Faster and more responsive heat than standard ceramic hobs – typical time to full heat is up to 5 seconds.

Solarglo Dual Zone

The dual circular design increases cooking flexibility since the hob can be used as a single or double zone, accommodating small and large pans.

Solarglo Multi Zone

Increased cooking flexibility - use as a single zone, a double zone for a large pan or a triple zone to accommodate fish kettles or griddles.

Solid Plate Hobs

Offering a more traditional style of cooking, our solid plate hobs feature zones that heat up faster than standard solid plates.

Safety Cut-Out

Our cookers with glass lids are fitted with a Safety Cut-Out. This cuts off the supply of gas if you accidentally close the glass lid with the burners still switched on.

Hob Hot Indicators

A valuable safety feature on all ceramic hobs. If the surface of the ceramic hob is still hot the indicators will light up, even after you have turned off the controls.

Multifunction Cooking
Choose from a variety of cooking functions in the main and secondary ovens:

8 Functions: Fan Assisted, Fan, Conventional, Bottom Heat, Grill, Half Grill, Fan Grill, Quick Defrost

7 Functions: Fan, Conventional, Baking, Grill, Half Grill, Fan Grill, Pizza

4 Functions: Conventional, Bottom Heat, Grill, Half Grill

Circulaire Fan Cooking
The fan has a heating element surrounding it to circulate hot air and create an even temperature throughout. It saves up to 10 minutes per hour in cooking time and you can set the temperature up to 20°C below a standard conventional oven and still achieve the same results, saving energy and time.

Zoned Gas Oven
Our gas ovens offer different temperature zones. These zones allow a number of different dishes to be cooked at the same time. The centre shelf position maintains the selected temperature, while the shelf positions above are a gas mark higher and the shelf positions below are a gas mark lower.

Eco Tech
Our Eco Tech icon is awarded to those cookers with the very best energy rating where both ovens are A energy rated.

A Energy Rating
All our Ultima 60cm and 50cm electric main ovens are A energy rated and on selected models both the main and secondary ovens are A energy rated.

Cool Touch Door
For extra safety in the kitchen our triple glazed Cool Touch oven doors ensure the outer temperature of the door is cooler to the touch.

Easy to Clean
The ergonomic design of our ceramic hobs ensure they are easy to wipe clean, whilst our easily removable inner door glass and Stay Clean Catalytic Oven Liners give you a helping hand too.

LPG
If your home uses liquid petroleum gas (LPG) rather than a mains gas supply, then we have a range of LPG and LPG convertible cookers in a choice of widths and colours.

Programmable Electronic Timer
Start and stop the oven automatically at a time that suits you with the easy to use 3 button timer. A handy minute minder and clock is also included.

Adjustable Feet
Our useful height adjustable feet on all our freestanding cookers help you to ensure you can set your cooker at the right height for use.

Stay Clean Catalytic Oven Liners
Catalytic agents work with the heat of the oven to break down grease and excess fats leaving you with more time to cook rather than clean.

Flame Supervision Device
A Flame Supervision Device, (also known as Flame Failure Device) is fitted to all gas and dual fuel cookers and is part of the gas burner system. It detects if the flame is accidentally extinguished and automatically cuts off the gas supply.

Automatic Ignition
For easy operation, the control knob has a push and turn action which ignites the burner using just one hand. The push action also acts as a safety device that prevents the gas being turned on accidentally. Its design is also stylish and helps to make the control panel easier to clean.

The Refrigeration Range

US Style Fridge Freezers

Create a style statement, whilst having the maximum capacity with our US Style range. Choose from the iconic Quadrio, to American side by sides, to our Big 70 with ingenious storage solutions, such as pizza storage built into the freezer doors.

Fridge Freezers

For maximum choice and even better food preservation, our new fridge freezer range has a range of heights, widths and colours, so there is a product for you. Take a look at our new 60cm Frost Free range, with the Air Tech Evolution system, which keep food fresher for longer.

Fridges

Perfect for storing fresh meat, fruit and vegetables. Our fridges come in a range of sizes and colours, so it's easy to find the right fridge to suit your kitchen layout.

Freezers

Hotpoint freezers are packed with intelligent features such as Frost Free, so you never have to defrost again. Look out for our models which have been tested and awarded Best Buy status by Which?.

US Style Fridge Freezers

Luxurious storage capacity and stunning looks, perfect for creating a showpiece in your kitchen.

100 years of innovation

The ideal atmosphere for your food.

The iconic Quadrio, 4-Door Fridge Freezer is unique, providing the luxury of a spacious interior and offering the latest in style and design.

Its innovative configuration consists of two doors to the fridge and two drawers to the freezer. Amazingly the Quadrio fits conveniently within just a 70cm wide space and is available in stunning Stainless Steel, High Gloss Black and Gun Metal, with an A Energy Rating.

Other ingenious features:

Can Holder - This space saving inner door can holder stores up to four 330ml cans of your favourite pop!

Twist & Serve Ice - In the top freezer drawer you will find a "Twist & Serve" ice tray which dispenses ice cubes by simply twisting the control. Quick, easy and no more lost ice trays in the freezer.

*Due to the extra depth of the door, installation of the FF7190E in a 70cm width cavity, particularly against a wall, may be problematic. Please allow up to 10cm additional space for maximum door opening.

Side by Sides

Fridge Freezers

Designed for optimum food preservation and storage.

ULTIMA

100 years of innovation

Air Tech Evolution System

Our new Frost Free Air Tech Evolution System ensures constant temperature control and perfect air circulation inside the fridge. The combination of these two ensures optimal condition for food preservation, ensuring food stays fresher for longer. This is achieved through a new multi-flow system which delivers an improved thermo dynamic performance.

Also when the door is opened causing a rise in temperature, the new system quickly brings the temperature back down faster than traditional fridge freezers, thus protecting the freshness of food and extending its life, reducing food waste.

Up to 20 litres extra capacity

Thanks to the new clever internal liner design in the fridge and freezer the new Air Tech Evolution System allows us to create more useable space, giving you up to 20 litres extra capacity versus our previous range.

Ultima 60cm Frost Free Fridge Freezer

Precise control at your fingertips
with the external digital display
and control panel.

Air Tech Evolution Fully Frost Free System
External Digital Display & Control Panel
External Handles
iCare Intelligent Refrigeration
Control Temperature Separately
for Both Fridge & Freezer
Holiday Setting
Super Cool, Super Freeze, Ice Party
Dual LED Internal Lighting
4 Safety Glass Shelves with Metal Trim
Wine Rack
Hygiene+ Antibacterial Protection
Full Width Chiller & Salad Bin
4 Freezer Drawers
Easy Ice - Ice Cube Storage

Gross Capacity:

Fridge 184 Litres, Freezer 113 Litres

Dimensions: H 1875 x W 600 x D 655 (mm)

Colours: Polar White (P), Stainless Steel (X)

FUTURE

A stylish new look, better energy rating and new frost free options, the Future range has it all.

FFFL2010

Future 60cm Frost Free Fridge Freezer

Even more space for your food
with an extra 20 litres thanks to the new interior design.

Air Tech Evolution Fully Frost Free System
External Handles
iCare Intelligent Refrigeration
Holiday Setting
Super Cool, Super Freeze
LED Indicator Lights
Dual Light
4 Safety Glass Shelves with Metal Trim
Wine Rack
Hygiene+ Antibacterial Protection
2 Salad Bins with Glass Cover
4 Freezer Drawers
Separate Thermostat for Fridge & Freezer
Also available: **FFFL2000** (P/G) A Rated

Gross Capacity:
Fridge 212 Litres, Freezer 113 Litres
Dimensions: H 2000 x W 600 x D 655 (mm)
Colours: Polar White (P), Graphite (G), Black (K),
Stainless Steel (X)

FFFL1810

Future 60cm Frost Free Fridge Freezer

The perfect environment for your food. The iCare Intelligent Refrigeration System ensures the ideal temperature.

Air Tech Evolution Fully Frost Free System
External Handles
iCare Intelligent Refrigeration
Holiday Setting
Super Cool, Super Freeze
LED Indicator Lights

3 Safety Glass Shelves with Metal Trim
Wine Rack
Hygiene+ Antibacterial Protection
2 Salad Bins with Glass Cover
4 Freezer Drawers
Separate Thermostat for Fridge & Freezer
Easy Ice - Ice Cube Storage

Gross Capacity:
Fridge 184 Litres, Freezer 113 Litres
Dimensions: H 1875 x W 600 x D 655 (mm)
Colours: Polar White (P), Graphite (G), Black (K),
Stainless Steel (X)

FFFM180
Future 60cm Frost Free Fridge Freezer

 **Protect against mould and bacteria** with Hygiene+ built into the internal walls.

Air Tech Evolution Fully Frost Free System
Integrated Handles
Internal Thermostat Control
Dual Light
2 Safety Glass Shelves with Metal Trim
Hygiene+ Antibacterial Protection
2 Salad Bins with Glass Cover
4 Freezer Drawers
Gross Capacity:
Fridge 184 Litres, Freezer 113 Litres

Dimensions: H 1875 x W 600 x D 655 (mm)
Colours: Polar White (P), Graphite (G)

FFFM170
Future 60cm Frost Free Fridge Freezer

 **Better organised on the inside,** the new internal design gives you more functional storage.

Air Tech Evolution Fully Frost Free System
Integrated Handles
Internal Thermostat Control
Dual Light
2 Safety Glass Shelves with Metal Trim
Hygiene+ Antibacterial Protection
2 Salad Bins with Glass Cover
3 Freezer Drawers
Gross Capacity:
Fridge 184 Litres, Freezer 88 Litres

Dimensions: H 1750 x W 600 x D 655 (mm)
Colours: Polar White (P), Graphite (G), Black (K)

RF187M
60cm Wide Fridge Freezer

 **Protect against mould and bacteria** with Hygiene+ built into the internal walls.

3 Safety Glass Shelves
2 Half Width Salad Bins
Full Width Bottle Balcony
3 Freezer Drawers plus 1 Freezer Flap
Ice Tray
Gross Capacity:
Fridge 185 Litres, Freezer 135 Litres

Dimensions: H 1870 x W 600 x D 655 (mm)
Colours: Graphite (G), Polar White (P)

RF175M
60cm Wide Fridge Freezer

 **Energy saving** with an A+ rating

3 Safety Glass Shelves
2 Half Width Salad Bins
Full Width Bottle Balcony
3 Freezer Drawers
Ice Tray
Gross Capacity:
Fridge 187 Litres, Freezer 116 Litres

Dimensions: H 1750 x W 600 x D 655 (mm)
Colours: Graphite (G), Polar White (P)

FFA52
55cm Wide Fridge Freezer

 **Easy access to ice when you need it.** Ice Care stores the ice trays neatly away into the freezer drawers.

3 Safety Glass Shelves
2 Half Width Salad Bins
Full Width Bottle Balcony
1 Freezer Flap
3 Freezer Drawers
Ice Care – In Drawer Ice Trays
Gross Capacity:
Fridge 155 Litres, Freezer 95 Litres

Dimensions: H 1740 x W 545 x D 580 (mm)
Colours: Silver (S), Polar White (P), Black (K)

RFA52
55cm Wide Fridge Freezer

 **Keep food as fresh as the day you bought it.** Super Freeze quickly freezes it to keep it in perfect condition.

3 Safety Glass Shelves
2 Half Width Salad Bins
Full Width Bottle Balcony
4 Freezer Drawers
Ice Care – In Drawer Ice Trays
Super Freeze
Gross Capacity:
Fridge 155 Litres, Freezer 105 Litres

Dimensions: H 1740 x W 545 x D 580 (mm)
Colours: Silver (S), Polar White (P), Black (K)

RTA42
55cm Wide Fridge Freezer

 **Like to store a lot of fresh food** and a small amount of frozen food, then the 80:20 split is for you..

4 Safety Glass Shelves
Full Width Salad Bin
Full Width Bottle Balcony
1 Shelf in Top Freezer Section
Gross Capacity:
Fridge 184 Litres, Freezer 42 Litres

Dimensions: H 1390 x W 545 x D 600 (mm)
Colours: Silver (S), Polar White (P)

Fridges

The perfect storage space for all your fresh food in a modern design that will look great in your kitchen.

RLSA175
60cm Wide Over Counter Fridge

RLS175
60cm Wide Over Counter Fridge

 **Keep 5 bottles of wine at the perfect temperature** without using up valuable storage space.

Hygiene

Colours: Polar White (P), Black (K)

RSAV21
Under Counter Fridge with Freezer Compartment

Ideal when space is at a premium, but you can't live without a bowl of ice cream.

Energy
A

- 2 Safety Glass Shelves
 - 2 Litre Deep Door Storage
 - Covered Dairy Compartment
 - Full Width Salad Bin
 - Freezer Compartment
- Gross Capacity:**
Fridge 108 Litres, Freezer 14 Litres

Dimensions: H 840 x W 545 x D 600 (mm)
Colour: Polar White (P)

Freezers

Our frost free models prevent the build up of ice, meaning you **never** have to defrost again.

FZSA175
60cm Wide Over Counter Freezer

FZS175
60cm Wide Over Counter Freezer

Perfect for freezing joints of meat, the big drawer bins have all the room you need.

6 Removable Freezer Drawers plus 1 Freezer Tray
Big Bin Freezer Drawers
Super Freeze
High Temperature Warning
Gross Capacity: 245 Litres

Dimensions: H 1750 x W 600 x D 655 (mm)
Colour: Polar White (P)

Lots of food to freeze? With a 245 litre capacity this is an ideal choice.

6 Removable Freezer Drawers plus 1 Freezer Tray
Big Bin Freezer Drawers
Super Freeze
High Temperature Warning
Gross Capacity: 245 Litres

Dimensions: H 1750 x W 600 x D 655 (mm)
Colours: Graphite (G), Polar White (P)

FZS150
60cm Wide Over Counter Freezer

RZS150
60cm Wide Over Counter Freezer

FZA34
60cm Wide Under Counter Freezer

RZA34
60cm Wide Under Counter Freezer

 **Keep food as fresh as the day you bought it.** Super Freeze quickly freezes it to keep it in perfect condition.

5 Removable Freezer Drawers plus 1 Freezer Tray
Big Bin Freezer Drawers
Super Freeze
High Temperature Warning
Gross Capacity: 197 Litres

Dimensions: H 1500 x W 600 x D 655 (mm)
Colours: Graphite (G), Polar White (P)

 **See what you want in an instant,** the big clear drawers make it easy.

5 Removable Freezer Drawers plus 1 Freezer Flap
Big Bin Freezer Drawers
Super Freeze
High Temperature Warning
Gross Capacity: 225 Litres

Dimensions: H 1500 x W 600 x D 655 (mm)
Colours: Graphite (G), Polar White (P)

 **Never defrost again,** with our frost free technology which minimises the build up of ice and frost.

3 Moulded Removable Freezer Drawers
Big Bin Freezer Drawer
Fast Freeze
High Temperature Warning
Gross Capacity: 100 Litres

Dimensions: H 850 x W 598 x D 620 (mm)
Colours: Graphite (G), Polar White (P)

 **Recommended by Which?** as a Best Buy.

13 Moulded Removable Freezer Drawers
Big Bin Freezer Drawer
Fast Freeze
High Temperature Warning
Gross Capacity: 120 Litres

Dimensions: H 850 x W 598 x D 620 (mm)
Colours: Graphite (G), Polar White (P)

RZAV21

55cm Wide Under Counter Freezer

If you have less room this compact freezer fits into a 55cm space.

3 Moulded Removable Freezer Drawers
Fast Freeze
High Temperature Warning
Gross Capacity: 102 Litres

Dimensions: H 840 x W 545 x D 600 (mm)
Colours: Polar White (P), Black (K)

RCNAA53

Large Chest Freezer

Buying in bulk and need a big freezer, then this has a huge capacity.

2 Freezer Baskets
Fast Freeze
Lock with Key
Internal Light
Counterbalanced Lid
Gross Capacity: 289 Litres

Dimensions: H 870 x W 1320 x D 660 (mm)
Colour: White (P)

RCNAA33

Medium Chest Freezer

Built in safety and security with a lockable and counterbalanced lid.

2 Freezer Baskets
Fast Freeze
Lock with Key
Internal Light
Counterbalanced Lid
Gross Capacity: 224 Litres

Dimensions: H 870 x W 1090 x D 685 (mm)
Colour: White (P)

RCAA17

Small Chest Freezer

Save energy and money. This is A+ rated.

1 Freezer Basket
Fast Freeze
Gross Capacity: 105 Litres

Dimensions: H 850 x W 550 x D 600 (mm)
Colour: White (P)

Just some of the intelligent features unique to Hotpoint refrigeration to keep you in the cool.

Our ideas. Your home.

Air Tech Evolution System
Ensuring total constant temperature control inside the fridge, air circulation is improved and food stays fresher for longer thanks to our new multi-flow system which has an improved thermo dynamic performance.

I Care - Intelligent Refrigeration
The I Care function sets the internal temperature of the fridge to the optimum energy efficient level dependent on fridge content.

Antibacterial Protection
Antibacterial Protection is built into our fridge liners giving protection for the life of the product. Working between normal cleanings it inhibits the growth of potentially harmful bacteria and reduces odours.

Digital Display
Using the latest technology, this Digital Display puts you in precise control of your fridge freezer programmes and temperature options simply by the touch of a button.

Dual LED Lighting
A new internal lighting system, which improves visibility, lasts 10 times longer and is 15 times brighter than a traditional bulb.

Eco Tech

Our Eco Tech icon is awarded to refrigeration appliances that are both A+ energy rated and fully frost free.

Holiday Setting
Save energy while you are away. Holiday Setting allows the freezer to keep running as normal whilst the fridge is set to 12°C when empty, with the door closed.

Wine Rack
Use our wine rack to neatly store your wine, allowing air to circulate around, ensuring wine is perfectly chilled.

Ice Party
Lukewarm wine and frozen bottles stay off the menu with Ice Party. White wine or champagne is quickly chilled to its ideal serving temperature and a discreet signal lets you know when it can be served.

Super Cool
After a big shopping trip or cooking session, a large number of new items in the fridge cause the internal temperature to rise. Use Super Cool in the fridge to quickly cool the temperature back to the optimum level.

Super Freeze
Use Super Freeze in the freezer to quickly freeze fresh food, keeping it as fresh as the day you bought it.

Fully Frost Free

So how does it work?... Thanks to the circulation of cold air in the freezer compartment and through the air tower in the fridge, ice crystals are unable to form, ensuring there is no build up of ice in the fridge or the freezer, meaning that you will never have to defrost again.

Frost Free

Frost Free works in the same way as Fully Frost Free, however the Frost Free system only manages the freezer compartment, not the fridge, ensuring you never have to defrost the freezer again, saving you time and energy.

Our appliance leaving the factory isn't the end of the story. For us, it's just the beginning of a whole new chapter.

Our ideas. Your home.

Quality at the heart of all we do.

At every stage of the creation of one of our appliances, everyone's job is to always achieve the highest possible quality standards. From the initial design stage, at production and lifestyle testing stages right through to when you give us feedback on your new appliance, quality is always key. It's the quality that guarantees the success of our products and it's this that has shaped our history and a success that we strive to build on every year.

Did you know?

- Hotpoint was one of the first white goods manufacturers to gain the Internationally Recognised ISO 9001: 2008 Quality Control System certification.
 - We have invested £15m in quality initiatives over the past 5 years.
 - Since 2006, our designers have spent 12,000 hours in quality training courses in Research and Development
- Our appliances are tested to simulate up to 10 years of use. For example a typical oven test would include:
 - 15,000 door opening and closing operations
 - 20,000 auto programmes
 - 18,000 control knob turns
 - 10,000 touch controls operations

Working in Partnership

One of our main aims is to lead the development of new technologies and create energy saving solutions, this enables us to provide you with high performance appliances which use fewer precious resources.

Part of this development process is working closely with other leading brands...

Ariel

We work closely with Ariel to bring you the best energy saving products and cleaning solutions for your home. It was this partnership that enabled us to jointly develop our unique energy saving Eco Cycles using the cleaning power of Ariel together with our advancement in washing technology, whilst ensuring great cleaning even at low temperatures. Hotpoint recommends using Ariel Excel Gel with Actilift™ with our Eco Cycles for the best results.

Finish

Together with Finish we strive to promote the many benefits of using a dishwasher. These include significant potential savings in time, water and energy, as well as superior cleaning results compared to washing up by hand. To ensure the best performance from your Hotpoint dishwasher you need the best detergent, and Finish is recommended to give perfect results every time.

We're here if you ever need us... 364 days a year!

Call us 364 days a year

Hotpoint service is second to none. We are open when you need us and our operators are on hand to answer your call every day, except Christmas day, including weekends and bank holidays on **08448 22 42 24** (if calling within the Republic of Ireland please call **0818 31 34 13**). Alternatively book online at www.hotpointservice.co.uk

Local engineers nationwide

We are the largest white goods service team in the United Kingdom & Republic of Ireland with fully trained Hotpoint specialists to ensure you receive fast, reliable and local service.

Appointments to suit you

We do everything possible to fit in with your busy lifestyle. You can choose between morning or afternoon appointments, with the option of the engineer's first or last visit of the day. Saturday appointments are also available in some areas. We will send you a text message with a 2 hour time slot on the morning of your appointment.

Professional workmanship – by the experts

Our engineers are professionally trained at the Hotpoint School of Excellence and receive continuous training to ensure they are up-to-date with the latest products. We only fit genuine Hotpoint replacement parts and guarantee our work for a full 90 days.

Guaranteed parts for 5 years

Your Hotpoint appliance is covered for a full 12 months by our own parts and labour warranty. In addition, when you register your appliance we also provide free parts for the first 5 years when fitted by our highly qualified engineers. Please call **08448 24 24 24** for more information (if calling within the Republic of Ireland please call **012 30 02 33**)

Satisfaction guaranteed

Within the first 90 days of ownership we have a dedicated team who provide fast track product advice and assistance to deal with your enquiries quickly and efficiently. In the unlikely event that a technical problem occurs that cannot be resolved in this period we will replace your appliance.

Your peace of mind with total protection

We offer a selection of repair protection plans that will enable you to fully cover any number of Hotpoint appliances – after your warranty expires – including new for old product replacement in the event they cannot be repaired. Please call **08448 22 62 26** for more information (if calling within the Republic of Ireland please call **012 30 02 33**).

Hotpoint Accessories

Introducing the new Hotpoint range of care products to **protect, prolong** and **enhance** your appliance.

Calblock

An ingenious magnetic device which softens water and prevents the formation of limescale which can cause premature appliance failure.

- Reduces energy consumption
- Saves on detergent
- No need for chemical water softeners

Code C00091631

Fridge Cleaner

For use on internal and external surfaces of your refrigerator.

- Removes odours
- Hygienically cleans
- No need to rinse
- Anti-bacterial

Code C00091009

Fridge Odour Absorber

Place inside the refrigerator to absorb odours from strong smelling foods.

- Contains active carbons
- Saturation indicator
- Lasts approximately 3 months

Code C00091059

Microfibre Cloth

Hygienically cleans all surfaces without added detergents.

- Use dry for dusting
- Removes fingerprints from steel and mirrored surfaces
- Recommended for people allergic to detergents

Code C00091055

Ceramic Hob Cleaner

For use on ceramic and glass hobs.

- Removes grease and burnt on food
- Hygienically cleans
- No scrubbing required

Code C00091015

Hob & Grid Renovator

Cream cleaner for all hob components such as burners, grids and hotplates.

- Removes grease and burnt on food
- Hygienically cleans
- Renovates

Code C00091031

Oven Cleaner

For use on ovens, shelves, grills and pans.

- Dissolves grease
- For use on a cold oven
- No scrubbing required
- Not for use on stay clean liners

Code C00091012

Limescale & Detergent Remover

Removes limescale and detergent build up and hygienically cleans all the internal parts of washing machines and dishwashers.

- Prevents breakdown
- Prolongs the life of the appliance
- Reduces energy consumption
- Easy to use
- Pack contains 1 year's supply

Code C00091077
